Profile Summary

Aspiring Full-Stack Developer with strong knowledge in MERN Stack (MongoDB, Express.js, React.js, Node.js) and programming fundamentals including Python and C. Experienced in building secure, scalable, and user-focused web applications with RESTful APIs, JWT authentication, and role-based access control. Strong understanding of Data Structures, CRUD operations, and backend development concepts. Passionate about problem-solving and continuously learning modern technologies.

Skills

Programming Languages: Python, JavaScript

Frontend Development: HTML, CSS, Tailwind CSS, React.js

Backend Development: Node.js

Database: MongoDB

Tools & Platforms: Git, GitHub, Postman, VS Code

Education

Sri Shakthi Institute of Engineering and Technology, Coimbatore

2023 – 2027

B.E. Electronics and Communication Engineering

. CGPA: 7.94

Jaycees Matric Higher Secondary School, Erode

HSC – Percentage: 85%

Projects

Gym Membership Management System

HTML, CSS, JavaScript, MongoDB, Node.js

- . Developed a full-stack Gym Membership Management System with secure role-based authentication.
- . Implemented Admin and User roles with protected admin signup using a secure access code.
- . Designed RESTful APIs for managing members, subscriptions, and payments.
- . Integrated JWT authentication and bcrypt password hashing for secure login and data protection.
- . Built a responsive React dashboard with charts and member statistics.
- . Implemented CRUD operations for member management (Add, Update, Delete, View).
- . Connected MongoDB Atlas for scalable and cloud-based data storage.
- . Improved system security using middleware for protected and admin-only routes.

Fuel Tracker

HTML, CSS, JavaScript, MongoDB, Node.js

- . Developed a web-based Fuel Tracker application to monitor vehicle fuel consumption and expenses.
- . Implemented CRUD operations to record fuel entries, mileage, and cost details.
- . Calculated fuel efficiency (km/l) automatically based on user input.
- . Integrated MongoDB for storing fuel history and expense records securely.
- . Designed an interactive and user-friendly interface for easy data entry and tracking.
- . Enabled users to analyze fuel usage trends and monthly spending.
- . Improved accuracy in tracking vehicle maintenance and fuel budgeting.

Certifications

- . Full Stack Python Certification
- . Web Development Course – Udemy
- . Frontend Development Certification
